

SANCTUARY MASTER ENCASEMENTS

The Sanctuary Master Series ensures a peaceful night's sleep with a mattress that is free from allergens, micro-toxins, dust mites, and bed bugs. It combines CleanBrands' cutting-edge technology with the comfort of a MicroPlush top fabric. The patented Zip-N-Click closure provides added protection by preventing bed bugs from entering or escaping through the zipper, while MicronOne fabric enhances the overall sleep experience.

The patented Zip-N-Click™ closure by CleanBrands provides added security by ensuring bed bugs cannot enter and/or escape the encasement at the most vulnerable point - the zipper closure.

Our products are water-resistant and waterproof, so they can help guard against stains and spills

The Sanctuary Master Max Series is now also available with 360 waterproofing and vented ends. Creating convenience for properties that flip the mattress regularly. [Contact us](#) for pricing on our Sanctuary Master Max Series.

MicronOne® FABRIC TECHNOLOGY

MicronOne® by CleanBrands is a patented fabric technology designed to enhance the sleep experience associated with all Sanctuary products. MicronOne® technology focuses on the microscopic fabric pore size, which stops allergens, micro-toxins, dust mites, and bed bugs from passing through to your mattress, box spring or pillow, thereby protecting your guests' skin and respiratory system.

With over 75 years of experience, Eden Textile has built trust providing high quality products and exceptional client service.
